EXECUTIVE PROFILE.

UI/UX Designer with a Computer Science background, experienced in designing user-centered digital products across healthcare, AI, SaaS, and EdTech platforms. Strong in UX research, user flows, wireframing, prototyping, and Figma, with hands-on experience delivering multi-role systems and live products. Known for collaborating with cross-functional teams to translate complex requirements into intuitive, scalable design solutions.

WORK EXPERIENCE.

Product Engineer & UI/UX Designer (Internship).

Oct 2024 - Apr 2025

Arogya Life Systems Lanka (Pvt) Ltd | Healthcare Software Solutions.

(6 months)

Roles, Responsibilities

- Worked closely with doctors, nurses, and hospital staff to understand daily workflows and usability issues.
- Designed user-friendly UI/UX for healthcare systems including EHR, EMR, Pharmacy, Lab, Billing, and Referral modules.
- Designed Doctor EMR features such as session management, quick prescription, patient history, and dental-specific views.
- Improved system usability by simplifying complex medical workflows for faster doctor interactions.
- Collaborated with product managers, developers, and QA teams to ensure designs were implemented correctly.
- Prepared clear UI/UX documentation, user flows, and feature explanations for development and implementation teams.
- Participated in testing, identifying UI issues and usability gaps before product releases.
- Supported live projects and system releases used by hospitals and clinics.
- Incorporated feedback from doctors and stakeholders to continuously improve the user experience.

Impact

- Helped improve doctor efficiency by making EMR workflows quicker and easier to use.
- Designed interfaces used in real hospital systems across Sri Lanka and Maldives.
- Contributed to healthcare software used daily for patient consultation and management.

Roles, Responsibilities

- Led end-to-end UI/UX design for multiple AI and platform-based products from concept to deployment.
- Redesigned the company website, improving visual consistency, structure, and usability.
- Designed AI-based Accounting and Call Analysis systems with multi-role flows for Admin, Super Admin, and Users.
- Designed an EdTech platform covering student journeys, management dashboards, and admin panels.
- Delivered UI/UX and branding for a social media platform in a startup environment.
- Mentored junior designers, reviewed work, and ensured design consistency across projects.
- Collaborated closely with developers to support implementation and Play Store-ready handovers.

Impact

- Designed scalable multi-role systems supporting admins, super admins, and large user bases.
- Helped transform ideas into real, deployable products in a fast-growing startup environment.
- Demonstrated leadership and ownership by managing designers and acting as a bridge between design and development teams.

TECHNICAL SKILLS

- User Experience (UX) Design: User-centered design, design thinking, usability engineering
- UX Research: User research, stakeholder interviews, requirement analysis, usability testing
- Information Architecture: User flows, site maps, journey mapping
- UI Design: Visual design, responsive design, accessibility principles (WCAG basics)
- Prototyping: Low-fidelity and high-fidelity prototyping, interactive prototypes
- Design Systems: Component libraries, style guides, consistency management
- Tools: Figma, Canva
- Design Handoff: Developer handoff, design specifications, implementation support
- Product Design: SaaS products, AI-based platforms, multi-role systems (Admin, Super Admin, End User)
- Documentation: UX documentation, feature documentation, design annotations

EDUCATION

Bsc (Hons) in Computer Science - Undergraduate.

Saegis Campus. | Nugegoda, Colombo, Sri Lanka.

Oct 2022 - present

Advanced Level in Mathematics.

T / Sri Shanmuga Hindu Ladies College. (National School) | Trincomalee, Sri Lanka.

2018 - 2020

- Combine Mathematics - Ordinary Pass (s)
- Physical Science - Ordinary Pass (s)
- Chemistry - Ordinary Pass (s)

Ordinary Level.

T / Sri Shanmuga Hindu Ladies College. (National School) | Trincomalee, Sri Lanka.

2017

- 5A, 2B, C, S

CERTIFICATES & COURSES

Diploma in Computing & Diploma in English.

2020 - 2021

Royal International College. | Trincomalee, Sri Lanka.

[DIC Certificate Link](#)

[DIE Certificate Link](#)

Professional Certificate in Marketing

2020 - 2021

By SLIM (Sri Lanka Institution of Marketing)

Royal International College. | Trincomalee, Sri Lanka

ACHIVEMENTS

2024 Saegis Code Pulse Designathon.

2024

Winners | Saegis Campus, Nugegoda.

[Certificate Link](#)

2023 Saegis Code Pulse Designathon.

2023

2nd Runner Up | Saegis Campus, Nugegoda.
